Communication & Languages	Danish (Native), English (Fluent), Professional Interpreting, Cross-disciplinary Dialogue, Empathetic Leadership, Conflict De-escalation, Presentation Skills.

Professional Experience

IT Consultant (Full-time)

Danske Bank (via EY / M Networks) | *Jun. 2022 – Dec. 2023*

- Scope of Role: Responsible for troubleshooting complex customer cases, analyzing large datasets in Excel, and technical onboarding during bank-wide debt restructuring and collections remediation.
- Case Reconstruction: Reconstructed the complete financial and legal case history for more than 400 customers through in-depth auditing of court records, settlements, interest calculations, and bank statements.
- Complex Data Validation: Validated payments, disbursements, interest accruals, and interest moratoriums in advanced Excel financial models.

- Onboarding & Knowledge Sharing: Served as floorwalker responsible for training, domain support, and authoring process documentation for peer training of new consultants.
- Independent Execution: Operated in a strictly regulated banking environment with a constant focus on data integrity, confidentiality, and regulatory compliance.

Interpreter (Freelance)

Tolk Danmark | *Feb. 2024 – Present*

- Scope of Role: Facilitates precise interpretation and communication at critical meetings with a strong focus on ethics, discretion, and professionalism.
- Certified Interpretation: Delivers accurate simultaneous and consecutive interpretation (Danish–English) for public and private institutions, including schools, municipalities, and social crisis meetings.
- Ethics & Discretion: Ensures complete impartiality, strict confidentiality, and high precision across legal, medical, and social terminology, including interpretation at court hearings.

Care & Support Worker (Temporary)

Forsorgshjemmet Absalon | *Mar. 2024 – Present*

- Provides administrative support, relationship building, and personal care for vulnerable citizens.
- Handles complex and emotionally demanding social situations with calm composure, empathy, de-escalation, and accurate documentation in specialized case systems.

Care Assistant

Kærbo Care Center, Ishøj | *Jun. 2026 – Sep. 2026*

- Direct assistance to elderly residents with daily routines, personal care, social activation, and digital care recordkeeping.
- Demonstrates high situational awareness, patience, and precise interdisciplinary handovers to nurses and colleagues.

Teaching Assistant & Mentor

Ole-Rømer School & Save the Children Youth | *Aug. 2019 – Oct. 2021 / Mar. 2025 – Present*

- Support educator for students with academic and social challenges, as well as volunteer mentor focusing on academic tutoring in mathematics and languages, structured study habits, motivation, and well-being.

Education

MSc in Digital Transformation

Roskilde University (RUC) | *Start Sep. 2026*

Master's program focusing on strategic planning and governance of digital transformation processes in private and public organizations, analysis and integration of complex IT systems, business processes, technology leadership, and socio-technical systems design.

BSc in Computer Science and Business Studies

Roskilde University (RUC) | *Sep. 2021 – Jun. 2024*

Interdisciplinary degree combining computer science and programming (Python, JavaScript, SQL), data modeling, database design, financial accounting, managerial economics, project management, and human-computer interaction (HCI/UX). Bachelor's thesis written on cybersecurity.

Featured Projects & Technical Showcases

Project Name	Domain & Tech Stack	Description & Technical Highlights
FinTech Debt Simulator	FinTech — TypeScript, Recharts, Financial Modeling	Interactive calculation model developed to simulate complex debt restructuring scenarios, interest moratoriums, principal haircuts, and creditor recovery rates.
Process Value Stream Visualizer	Digital Transformation — BPMN, STP, ROI Analysis	BPMN process architecture comparing manual As-Is workflows with automated To-Be STP (Straight-

Project Name	Domain & Tech Stack	Description & Technical Highlights
		Through Processing) workflows and calculating FTE savings.
AI Legal Compliance Auditor	Legal Tech — Compliance, GDPR, Contract Audit	Intelligent compliance scanner screening legal contracts against statutory limitation laws, credit agreement regulations, and GDPR with dynamic risk scoring and 1-click remediation.
Ascension Cards (Habit RPG)	Full Stack Web App — React 19, TanStack, Three.js, TypeScript	Immersive habit tracker and RPG platform built with modern web architecture, collectible cards, streaks, XP progression, and 3D WebGL visualization.
